Apple Developer Account & In-App Subscriptions Guide

CLIENT ACTION GUIDE

Simple Roadmap for Your Apple Developer Account

Everything you need to set up your official Apple Developer Account, enable iOS subscriptions, connect your bank account, and understand how Apple pays you.

ANNUAL COST	VERIFICATION TIME	YOUR EARNINGS	APPLE FEE
$99 USD / ₹8,700	24 to 48 Hours	85% of Revenue	15% (Small Biz)

1. Which Account Type Should You Choose?

RECOMMENDED (FASTEST)

Individual Account

Ideal for fast startup launch. Registered under your personal name. App Store seller name will show your personal name.

- ✓ Approved in **24 to 48 hours**
- ✓ Only needs Aadhaar / Passport & PAN
- ✓ **No company registration or D-U-N-S needed**
- ✓ Can be upgraded to Company account later

Organization / Company Account

Registered under your registered company (Pvt Ltd, LLP). App Store shows your company brand name as seller.

- ✓ Takes **5 to 10 business days**
- ✓ Requires official **D-U-N-S® Number** (Free)
- ✓ Requires Certificate of Incorporation & GST
- ✓ Requires official company website & domain email

2. Step-by-Step Enrollment Guide (Takes 10 Minutes)

1 **Create an Apple ID & Enable Two-Factor Authentication**

If you don't already have an Apple ID, create one at **appleid.apple.com**. On your iPhone, iPad, or Mac, sign in with this Apple ID and turn on **Two-Factor Authentication (2FA)** under Settings → Your Name → Sign-In & Security.

2 **Download the "Apple Developer" App on iPhone or iPad (Fastest Method)**

Open the App Store on an iPhone or iPad, search for **"Apple Developer"**, and install it. This is Apple's official, fastest enrollment method with instant camera verification.

💡 *Tip: Enrolling via the Apple Developer app has an 80% faster approval rate than the web browser.*

3 **Tap "Enroll Now" and Enter Details**

Open the Apple Developer app → go to the **Account** tab → tap **"Enroll Now"**. Enter your legal first name, last name, phone number, and address matching your Government ID.

4 **Pay the $99 Annual Fee (₹8,700 approx)**

Pay via Credit Card or Debit Card with **International Transactions enabled**. In India, Apple also accepts UPI when paying through the Apple Developer iOS app.

⚠️ *Note: Make sure "International Usage" and "Online Transactions" are switched ON in your bank app.*

Connecting Your Bank & Tax (To Receive Money)

FINANCIAL SETUP

3. Setting Up Agreements, Tax & Banking in App Store Connect

Once your Apple Developer account is approved, you will have access to **App Store Connect (appstoreconnect.apple.com)**. Before selling subscriptions, you must link your bank account so Apple can wire your earnings every month.

A

Sign the "Paid Apps Agreement"

Log in to **appstoreconnect.apple.com** → click on **Agreements, Tax, and Banking**. Under "Agreements", find the **Paid Apps** contract and click **View and Agree**.

B

Add Your Indian / Local Bank Account

Click **Bank Accounts** → **Add Bank Account**. Enter the following details:

Required Field	Where to Find It
Account Holder Name	Exact legal name on your bank account / passbook
Account Number	Your standard savings or current account number
Bank IFSC Code	Found on your chequebook, passbook, or bank app
Bank SWIFT / BIC Code	Required for foreign wire transfer. Ask your bank or check online. (e.g. HDFC, ICICI, SBI SWIFT code)

C

Complete US Tax Form (W-8BEN) — Takes 2 Minutes

Apple asks for a simple online tax form called **W-8BEN** to confirm you are based in India and not a US citizen:

- Select **Individual** or **Company**
- Enter your Name, Address, and **Indian PAN Card Number** as your Foreign Tax ID.
- Click Submit. **No US tax will be deducted** because of the India-US Tax Treaty!

4. Apple's Small Business Program: How to Keep 85% Revenue

🚀 Apple Small Business Program (15% Fee Instead of 30%)

By default, Apple takes a 30% cut. However, for all startups earning under **$1,000,000 USD/year (₹8.3 Crore)**, Apple has the **App Store Small Business Program**, which cuts Apple's commission in half to just **15%**!

USER PAYS	APPLE TAKES (15%)	YOU RECEIVE (85%)
₹100	**₹15**	**₹85.00**

When does Apple pay you?

Apple transfers your money directly into your bank account **every month (approximately 33 days after the end of each fiscal month)** via direct bank wire transfer.

Creating the iOS Subscriptions & Action Checklist

PRODUCT CONFIGURATION

5. How Subscriptions Are Created in App Store Connect

Once the developer account is active, your technical team will set up the subscriptions inside **App Store Connect → Travia → Subscriptions** with these exact parameters:

Plan Name	Type	Price (India)	Apple Product Identifier
24-Hour Day Pass	Non-Renewing Pass	**₹29.00** (Tier 1)	`com.travia.app.daypass29`
1-Month Frequent Pass	Auto-Renewable	**₹199.00** (Tier 3)	`com.travia.app.monthly199`
3-Month VIP Pass	Auto-Renewable	**₹499.00** (Tier 7)	`com.travia.app.vip3month499`

Who does what?
Your role (Client): Create the Apple Developer Account, complete identity verification, and link your bank account.
Developer role (Tech Team): Link the In-App Purchase product IDs into the Flutter app code, configure the StoreKit hooks, and test with Apple Sandbox.

6. Client Action Checklist (What to Do Right Now)

- [ ] **Step 1:** Turn on 2-Factor Authentication on your Apple ID
- [ ] **Step 2:** Install "Apple Developer" app on iPhone or iPad
- [ ] **Step 3:** Complete "Enroll Now" and pay $99 (₹8,700)
- [ ] **Step 4:** Wait 24-48 hours for Apple's approval email
- [ ] **Step 5:** Log in to App Store Connect → Sign Paid Apps Agreement
- [ ] **Step 6:** Add Bank Account (Account No, IFSC, SWIFT Code)
- [ ] **Step 7:** Fill simple online W-8BEN form with PAN Number
- [ ] **Step 8:** Apply for Apple Small Business Program (15% rate)

7. Frequently Asked Questions by Clients

Q: Can I use Razorpay on iOS instead of Apple In-App Purchase?
No. Apple Rule 3.1.1 strictly prohibits third-party gateways like Razorpay for digital app unlocks on iPhones. Using Razorpay on iOS will cause Apple to immediately reject the app. In-App Purchase is mandatory and gives iPhone users seamless 1-touch Face ID payment.

Q: Can I add the tech team to my account without sharing my personal password?
Yes! You never need to give your personal password. In App Store Connect, go to **Users and Access → Add User (+)**, enter your developer's email, and grant them the "Developer" or "Admin" role.
