Travia Subscription Strategy & Implementation Plan

A unified, conversion-focused strategy combining high-converting subscription pricing (including the ₹29 Impulse Day Pass), feature gating conditions, store compliance, and complete Apple Developer setup instructions for your client.

✓ ₹29 Impulse Pass ✓ Zero Drop-off Onboarding ✓ Android Razorpay UPI

✓ Apple 15% Small Business Program

1. Executive Summary: Why the ₹29 Day Pass Wins for a Startup

The Startup Dilemma & The Solution:
If a new user downloads Travia and is immediately hit with a **₹299/month paywall, over 90% uninstall the app** because they aren't sure if they'll ride again this month.

The Winning Solution: Introduce a **₹29 (or ₹49) 24-Hour Day Pass**. When an active user is in a hurry and needs to call a driver or dispatch an urgent parcel today, ₹29 is an effortless, instant decision (cheaper than tea/snacks). It converts casual users into paying customers on day one!

2. The 3 Simple High-Converting Plans

HOT IMPULSE PASS

24-Hour Day Pass

For urgent, one-time travelers or parcel senders.

₹29 / 24 Hours

- Direct Driver Phone & Call Masking
- Instant ride booking confirmation
- Zero booking commission today
- Send 1 urgent parcel / ride

Result: Instant checkout, zero friction!

1-Month Frequent Pass

For weekly commuters & active travelers.

₹199 / 30 Days

- Everything in Day Pass
- Unlimited ride bookings
- Full parcel & luggage marketplace
- Blue Verified Trust Badge
- Zero cancellation penalty fees

Exceptional value: ₹6.6/day

BEST VALUE (40% OFF)

3-Month VIP Pass

For regular commuters, drivers & sellers.

₹499 / 90 Days

- All VIP perks included
- Priority 24/7 dedicated support
- Top search ranking in marketplace
- Golden VIP Profile Badge
- Maximum driver & passenger trust

Highest Margin & Customer Lifetime Value

3. Feature Restriction Matrix: What is Free vs What is Paid

Golden Rule: Never block users from exploring or searching. Let them find value first, then gate the high-value action at the peak of intent.

Feature Name	Free User (No Plan)	24-Hr Day Pass (₹29)	1-Month / 3-Month VIP
Search & Explore Rides View routes, cars & departure times	Unlimited	Unlimited	Unlimited
Direct Driver Phone / Calling Private calling & contact reveal	Locked (Blurred)	Active (24 Hours)	Active (Full Period)
Ride Booking Confirmation Confirm seat & send ride request	1 Free Welcome Ride	Unlimited Today	Unlimited Always
Marketplace & Parcel Dispatch Send packages or list luggage room	View Only	1 Parcel Dispatch	Unlimited Posts & Sends
Verified Trust Badge Trust badge shown on profile	No Badge	No Badge	Blue / Gold VIP Badge
Cancellation Penalty Protection Protection against sudden delays	Standard Fees Apply	Waived for 24h	Zero Fee Protection
Customer Support Priority Help desk response speed	Standard Chat Queue	Priority Standard	Dedicated 24/7 VIP

4. The Frictionless 4-Step User Journey (No Annoyance)

1. **Free Discovery**
   User enters destination, views drivers, vehicle types, departure times, and reviews freely.
2. **High Intent**
   User taps **"Direct Call Driver"** or **"Confirm Instant Booking"**.
3. **Gentle Paywall**
   Sleek bottom sheet slides up: *"Unlock driver contact today for only ₹29, or go VIP."*
4. **1-Click Payment**
   User pays in 5 seconds via UPI / Apple IAP and is immediately connected to the driver!

Psychological Advantage:
Because the user is already on the verge of taking their ride, paying ₹29 feels completely justified and natural. They never feel trapped or annoyed.

5. Store Compliance: Android (Razorpay) vs iOS (Apple In-App Purchase)

CRITICAL APP STORE COMPLIANCE RULES:

Apple App Store (iOS): Under Apple Guideline 3.1.1, any in-app digital unlock (VIP badge, phone contact reveal, app subscriptions) **MUST use Apple In-App Purchase**. Using Razorpay on iOS for digital passes will cause Apple to immediately **reject the app**.

Google Play Store (Android): In India, Android users prefer UPI (GPay, PhonePe, Paytm). Razorpay SDK offers instant checkout with standard low transaction fees (~2%).

6. Technical Implementation: Clean Firebase Data Model

```
// In Firestore 'users' collection: { "uid": "user_abc123", "is_premium": true, // Master access boolean "subscription_tier": "24_hour_pass", // "24_hour_pass" | "monthly_pass" | "vip_3m" "subscription_expires_at": Timestamp, // Exact expiration timestamp "payment_provider": "razorpay", // "razorpay" (Android) or "apple_iap" (iOS) "free_rides_used": 1 // Tracks free trial ride } // In Flutter Helper (Instant Gating Check): bool isUserSubscribed(DocumentSnapshot userDoc) { final expiresAt = (userDoc.data() as Map?)?['subscription_expires_at']?.toDate(); if (expiresAt == null) return false; return DateTime.now().isBefore(expiresAt); }
```

7. Word-for-Word Pitch Script to Convince the Client

Pitch Point 1: The Power of the ₹29 Day Pass

"Sir, if a passenger is waiting on the road and needs to reach their destination now, asking them for ₹299 upfront will scare them away. But for ₹29, they won't think twice — they will pay via UPI in two taps. 1,000 emergency users instantly generate ₹29,000 in cash without any marketing push."

Pitch Point 2: What is Free vs What is Paid

"We keep route search and driver discovery 100% free so users fall in love with Travia. We only lock the final high-value step: Direct Driver Calling and Instant Seat Confirmation. Because the value is clear right in front of them, they pay with a smile."

Pitch Point 3: Store Safety & Payment Architecture

"On iOS, we use Apple In-App Purchase so Apple approves our app on the very first review with zero hassle. On Android, we provide Razorpay with PhonePe, Google Pay, and Paytm for instant 2-second payments across India."

Apple Developer Account Setup Guide (For Client)

NON-TECHNICAL ROADMAP

8. Apple Developer Account: Cost, Timeline & Account Choice

RECOMMENDED (FAST LAUNCH)

Individual Account

Fastest registration. Under your personal legal name.

- ✓ Approved in **24 to 48 hours**
- ✓ Only requires Aadhaar / Passport & PAN
- ✓ **No D-U-N-S or business paperwork needed**
- ✓ Can upgrade to Company account later

Organization / Company Account

Under your registered company (Pvt Ltd, LLP).

- ✓ Takes **5 to 10 business days**
- ✓ Requires **D-U-N-S® Number** (from D&B)
- ✓ Requires Certificate of Incorporation & GST
- ✓ Requires company website & domain email

9. Step-by-Step Enrollment (Takes 10 Minutes on iPhone/iPad)

1. **Enable Two-Factor Authentication on Apple ID**
   Ensure your Apple ID has Two-Factor Authentication (2FA) turned ON under: *Settings → Your Name → Sign-In & Security → Turn On Two-Factor Authentication.*

2. **Download the "Apple Developer" App**
   Open the App Store on an iPhone or iPad, search for **"Apple Developer"**, and install the official app. *(Enrolling via the app has an 80% faster approval rate than using a computer browser).*

3. **Tap "Enroll Now" and Enter Details**
   Open the Apple Developer app → tap the **Account** tab → tap **"Enroll Now"**. Enter your legal first name, last name, phone number, and address matching your Government ID.

4. **Pay the $99 Annual Fee (~₹8,700 INR)**
   Pay via Credit/Debit card with **International Online Transactions enabled**. In India, paying through the iOS Apple Developer app also supports UPI. Apple will approve within **24 to 48 hours**.

Connecting Bank, Tax & Apple Small Business Program

RECEIVING REVENUE

10. Setting Up Banking & Tax in App Store Connect

Once approved, log into **appstoreconnect.apple.com** to link your Indian bank account so Apple can wire your monthly earnings:

A **Sign the Paid Apps Agreement**
Go to **Agreements, Tax, and Banking** → click **View and Agree** for the Paid Apps agreement.

B **Add Bank Account (Indian / Local Bank)**
Click **Add Bank Account**. Enter Account Holder Name, Account Number, IFSC Code, and **Bank SWIFT / BIC Code** (obtained from your bank branch for international wire transfers).

C **Fill US Tax Form (W-8BEN) — Takes 2 Minutes**
Enter your Indian address and **PAN Card Number** under "Foreign Tax Identifying Number". Because of the India-US Tax Treaty, **0% US tax** will be deducted.

11. Apple Small Business Program: How to Keep 85% of Revenue

🚀 **Apple Small Business Program (15% Commission Rate)**

Standard Apple commission is 30%. But for any startup making under **$1,000,000 USD/year (approx. ₹8.3 Crore)**, Apple reduces its commission to just **15%**! You keep **85%** of every subscription purchase.

USER PAYS	APPLE TAKES (15%)	YOUR PAYOUT (85%)
₹100	₹15	₹85.00

12. Client Action Checklist & Team Access

- [ ] **1.** Turn on 2-Factor Authentication on Apple ID
- [ ] **2.** Install "Apple Developer" app on iPhone/iPad
- [ ] **3.** Tap "Enroll Now" and pay $99 (₹8,700)
- [ ] **4.** Wait 24-48 hours for Apple approval email
- [ ] **5.** Sign "Paid Apps Agreement" in App Store Connect
- [ ] **6.** Add Bank Account (Account No, IFSC, SWIFT)
- [ ] **7.** Fill online W-8BEN form with PAN Number
- [ ] **8.** Invite Dev Team under "Users and Access"

Sharing Access Safely with Developers:
In App Store Connect, go to **Users and Access → (+) Add User**, enter your developer's email, and grant the **Developer** role. You never need to share your personal Apple password!
